

COMPARATIVE MATRIX & KEY DIFFERENTIATORS

COSGRID SD-WAN VS FORTINET SD-WAN

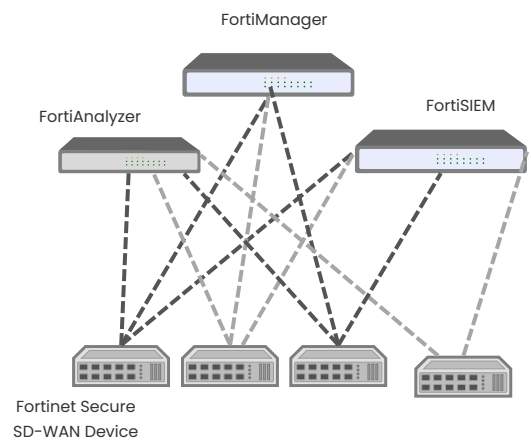

PLATFORM FOUNDATION

COSGrid Networks SD-WAN

Native and True SD-WAN Architecture-
Integrated Holistic Simple SD-WAN Platform

Fortinet SD-WAN

Firewall evolution SD-WAN - **Complex** and **multiple** Fortigate components SD-WAN Platform

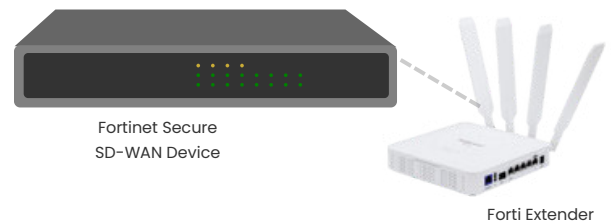

4G /5G SUPPORT

COSGrid Networks SD-WAN

Superior support - **Integrated** with **multiple 4G/5G Modules**

Fortinet SD-WAN

Highly Limited; External FortiExtender required

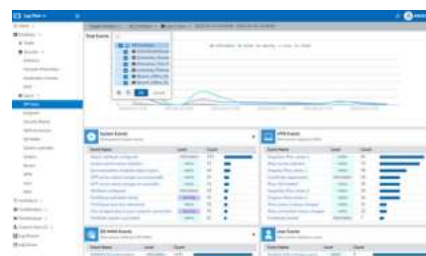

CENTRALIZED MANAGEMENT & AUTOMATION

COSGrid Networks SD-WAN

Truly **Flexible Automation**, Orchestration and **easy deployment** models

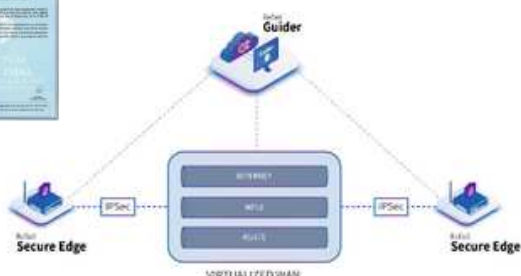

Fortinet SD-WAN

Supported - **Rigid architecture** , **Complex deployment**

WAN LINKS BONDING

COSGrid Networks SD-WAN

Zero Glitch, True Link Bonding with quality based traffic steering (**patented**)

Fortinet SD-WAN

Packet Load balancing (Fortigate) - **Not seamless / Glitch free**

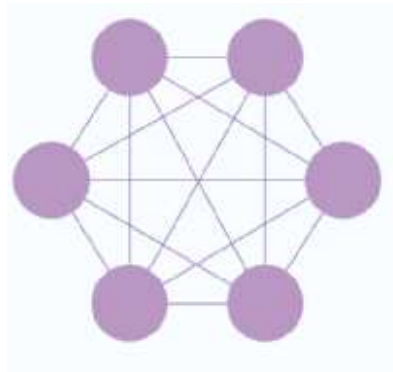

MESH VPN (SPOKE TO SPOKE - DIRECT)

COSGrid Networks SD-WAN

Excellent - **Combined with Zero Trust Network Access**

Fortinet SD-WAN

Limited **Mesh VPN but no Zero Trust**

DEVICE GEO FENCING

COSGrid Networks SD-WAN

Supported for best in class security

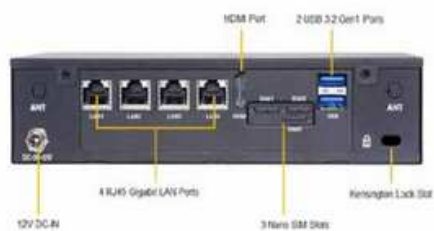

Fortinet SD-WAN

Device Geo Fencing - **Not Supported**

WAN CONFIGURATION FLEXIBILITY

COSGrid Networks SD-WAN

More than 2 WANs of different types (**4G/5G, MPLS, Broadband**) very easy

Fortinet SD-WAN

Limited and Complex with more than 2 WANs

Features	Parameters	COSGrid	Fortinet
SD-WAN	Application Identification and Control	Supported	Supported
	Application Aware Traffic Control	Supported	Supported
	SD-WAN deployment	Simple and zero touch Deployment	Simple Deployment
	SASE	Supported - NetSecOps with SASE	Limited Support
Networking	QoS, Traffic Shapping	Supported	Supported
	Advance Routing	Supported with Patented Multi Path Traffic steering	Supported
	VPN/Overlay	Supported	Supported
	Multicast	Supported	Supported
	Advance Networking (DHCP, DNS, NAT, NAPT)	Supported	Supported
NOC	Cloud Orchestration	Supported - Dedicated Cloud Guider	Supported
	Enhanced Analytics	Supported	Supported
	Cloud on-ramp	Supported	Supported
Security	Firewall On Prem,	Supported	Supported
	Firewall Cloud Delivered,	Supported	Supported
Management	Redudancy/HA	Supported	Supported
	Integration (Restful API, Third party)	Supported	Supported
	Virtual Environment (VMWare, Hyper-V, Citrix, Xen, KVM, Cisco, Nutanix)	Supported	Supported
	Built-in variants (POE, LTE, Wifi, ADSL/VDSL)	Supported	Supported
Port	LAN, WAN, Gigabit Ethernet	Supported	Supported
	RJ-45	Supported	Supported
	USB	Supported	Supported
Connection	Broadband,	Supported	Supported
	VSAT, IPSEC,	Supported	Supported
	MPLS	Supported	Supported
